

Dept. of Public Works

To: Residents of Smith Street

From: Village of Brockport Water Department

Date: September 27, 2017

On Monday, October 2nd, 2017 The Village of Brockport Water Department will be replacing a section of the water main at the intersection of Clark St. and Smith St. that supplies the water to your home. Therefore, we will have to turn off the water main from 9:00 am to 2:00 pm. This shut down is necessary to do the switch over to a newer water main at the above-mentioned intersection.

If you have any questions please call the office at 637-1060, Monday – Friday 7:00am - 3:30pm.

Thank You,

Harry Donahue
