

Dept. of Public Works

To: Residents of West Ave.

From: Village of Brockport Water Department

Date: July 13, 2016

On Thursday July 14th, 2016 The Village of Brockport Water Department will be tying the Idlewood Drive water line into the new newly installed 12" water main at West Ave. Therefore, we will have to turn off the water main that supplies your homes with water. This is scheduled to happen from 9:00 am to 12:00 pm. This shut down is necessary to tie Idlewood Drive. to the new main. If you have any questions please call the office at 637-1060, Monday – Friday 7:00am - 3:30pm.

Thank You,

Harry Donahue
