Brockport, New York**

# Benches for Brockport

Placed in honor or as a memorial

The Arts and Aesthetics Committee, a sub-committee of Walk! Bike! Action Group, has placed 16 benches in our community since its inception.

The main objective of Walk! Bike! Action Group is to promote a healthier citizenry in Brockport. In addition to its health benefits, walking and biking offer the opportunity to see neighbors, rediscover the village, and to support local businesses.

Brockport is a diverse community, proud of its rural roots and neighborliness. We envision young families, students, and senior citizens walking and meeting in our town and along the canal. The benches placed around our Village offer respite, a chance to socialize, and enhance the beauty of our unique Victorian village. The committee has selected benches which reflect Brockport's architectural character. The committee views the placement of benches in our community as a wonderful asset to our town and village.

Bench placement now is sought for the North bank of the Canal, between Main and Park Streets, or on other sites around the Village.
