AREA VARIANCE TEST

New York State criteria:

In making its determination, the ZBA shall take into consideration the benefit to the applicant if the variance is granted, as weighed against the detriment to the health, safety and welfare of the neighborhood or community by such grant. In making such determination the board shall also consider:

- 1) whether an undesirable change will be produced in the character of the neighborhood or a detriment to nearby properties will be created by the granting of the area variance;
- 2) whether the benefit sought by the applicant can be achieved by some method feasible for the applicant to pursue, other than an area variance;
- 3) whether the requested area variance is substantial;
- 4) whether the proposed variance will have an adverse effect or impact on the physical or environmental condition in the neighborhood or district; and
- 5) whether the alleged difficulty was self-created; which consideration shall be relevant to the decision of the board of appeals, but shall not necessarily preclude the granting of the area variance.

The ZBA, in the granting of area variances, shall grant the minimum variance that it shall deem necessary and adequate and at the same time preserve and protect the character of the neighborhood and the health, safety and welfare of the community.

USE VARIANCE TEST

New York State criteria:

In making its determination, the ZBA shall take into consideration the benefit to the applicant if the variance is granted, as weighed against the detriment to the health, safety and welfare of the neighborhood or community by such grant. In making such determination the board shall also consider:

- 1) the applicant cannot realize a reasonable return, provided that lack of return is substantial as demonstrated by competent financial evidence
- 2) that the alleged hardship relating to the property in question is unique, and does not apply to a substantial portion of the district or neighborhood;
- 3) that the requested use variance, if granted, will not alter the essential character of the neighborhood; and
- 4) that the alleged hardship has not been self-created.

The ZBA, in the granting of use variances, shall grant the minimum variance that it shall deem necessary and adequate to address the unnecessary hardship proved by the applicant, and at the same time preserve and protect the character of the neighborhood and the health, safety and welfare of the community.
