127 Main Street
Brockport, NY 14420
March 8, 2023

Dear Park Avenue and Fayette Street neighbors,

Please note the changes in parking during the Main Street bridge closure shown on the enclosed diagram for Park Avenue. These changes will be marked with on-the-street signage that will go into effect with the closing of the bridge on April 3, 2023. Unfortunately, restricting parking is the only way to facilitate the flow of increased two-way traffic during the bridge closure on Park Avenue. We apologize for the inconvenience this will cause residents, especially those who reside between South Street and the Five Corners Stoplight.

Note that the diagram also includes information on Smith Street bridge traffic and the intersection of Fayette and East Avenues.

A crosswalk on Fayette at the south side of Barry Street is planned for the bridge closure.

As we move forward, for any questions re the bridge closure, call Village Hall 637-5300, consult the Bridging Brockport page of the Village website, and/or download the free My Brockport Village app.

Sincerely,

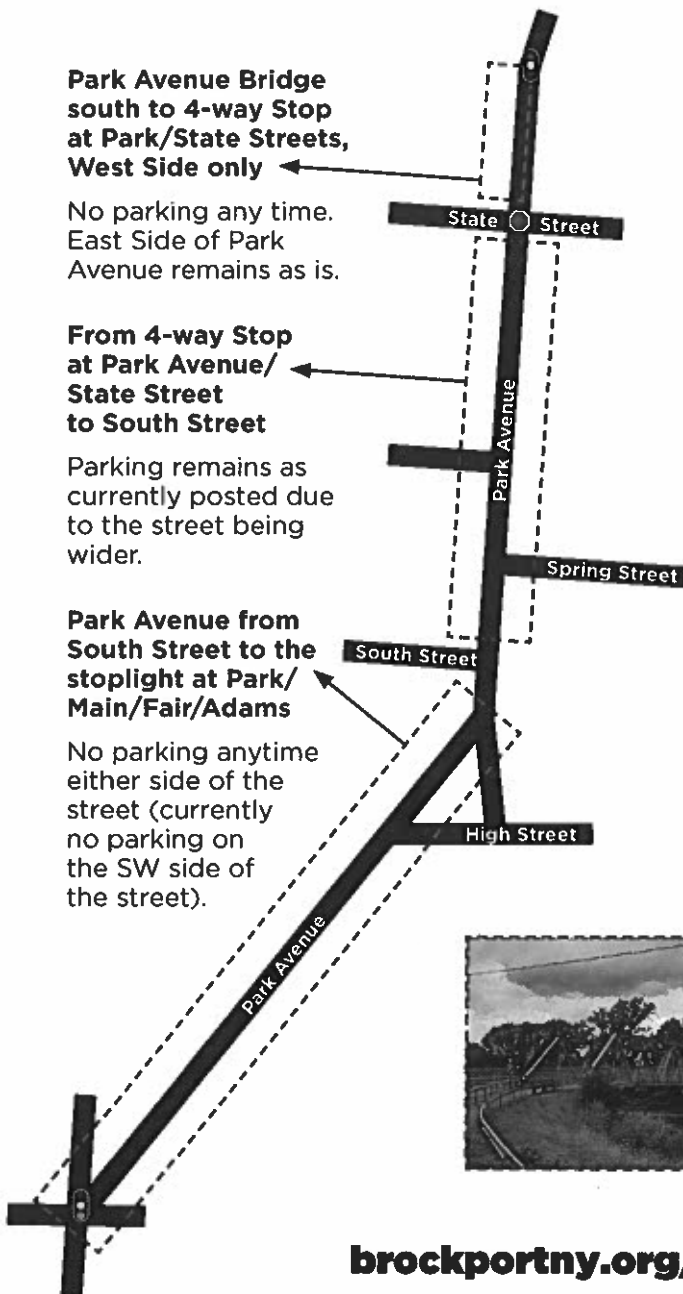

Margay Blackman
Mayor

Mayor Margaret B. Blackman
Trustee/Deputy Mayor Annette M. Crane
Trustees John D. LaPierre, Shawn Halquist, Katherine J. Kristansen

VILLAGE THROUGH TRAFFIC/PARKING

Park Avenue Parking Changes

Beginning April 1, parking will change for 18 months in certain areas of Park Avenue to accommodate the heavier than normal north/south traffic across the Park Avenue bridge. Delivery trucks will continue to be able to make brief stops along the no parking areas to deliver goods.

Park Avenue Bridge south to 4-way Stop at Park/State Streets, West Side only

No parking any time. East Side of Park Avenue remains as is.

From 4-way Stop at Park Avenue/State Street to South Street

Parking remains as currently posted due to the street being wider.

Park Avenue from South Street to the stoplight at Park/Main/Fair/Adams

No parking anytime either side of the street (currently no parking on the SW side of the street).

Intersection of East Avenue/Fayette Street

DOT plans a **three-way stop**. Traffic volume, per DOT, does not warrant a stoplight.

Smith Street Bridge

Due to traffic level and Village ownership of the bridge, NYSDOT will not provide traffic assistance. Our online survey of residents on how to handle the bridge overwhelmingly favored a stoplight at both ends of the bridge. Retired village-owned stoplights stored at DPW will, at a nominal cost to the village, be returned

to service to enhance the safety of traffic over the bridge. The lights will be installed a few weeks before the Main Street Bridge closure so drivers will have an opportunity to get used to them.
